

Subject:

Object-oriented Analysis and Design

Course overview

Lê Văn Vinh, PhD

Department of Software Engineering

Faculty of Information Technology

HCMC University of Technology and Education

Course overview

❖ **Course's objectives**

- Provide students with key concepts in Object-oriented analysis and design.
- Help students have ability to analyze a given domain and suggest an object-oriented design.
- Provide students with skills of using UML.
- Provide students with basic knowledge about Object-Oriented Design Patterns and their usage.

❖ **Duration**

- Total hours: 60 (30+30)

Subject's contents

- ❖ Chapter 1: Overview
- ❖ Chapter 2: User requirements
- ❖ Chapter 3: Class design
- ❖ Chapter 4: Interaction diagram
- ❖ Chapter 5: Design patterns
